Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 16, 40, 55, 76 and 91 when considered as a whole, are allowable over the prior arts of record. Specifically, prior arts of record do not teach or suggest the combination of means, arranged and interacted to perform the step of displaying multimedia information stored in a multimedia document on a display.

Specifically, although Jain teaches a first visual representation including a first type of information being displayed in a first area of the GUI and a second visual representation including a second type of information being displayed in a second area of the GUI (figure 2, areas 172, 176). Jain also teaches a first lens positionable over a plurality of portions of the first visual representation displayed within the first area of the GUI, the first lens covering a first portion of the first visual representation within the first area (figure 2, the first lens covers the frame 172); and the second lens positionable over a plurality of portions of the second visual representation within the second area (figure 2, one of the frame of area 176).

However, none of the references teach or suggest the features of displaying, in a first sub-area of the third area of the GUI, the portion of the second representation of the information of the first type covered by the second lens as the third representation of the information of the first type; and Jain also fails to

teach displaying the portion of the second representation of the information of the second type covered by the second lens as the third representation of the information of the first type.

With such limitations, the examiner deems this application in condition for allowance over the prior arts made of record.

The prior arts made of record and not relied upon are considered pertinent to applicant's disclosure. These are cited as relevant to the application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mylinh Tran. The examiner can normally be reached on Mon - Thu from 7:00AM to 3:00PM at 571-272-4141.
